

Middlebury

TESTIMONIAL:

Graphics for museum exhibitions demand accurate color rendering, subtle matte finishes, sharp image quality, and often in a ridiculously tight production schedule that would cause most vendors to cry "wolf." Well, not Awesome Graphics. I have been working with Tami and Co. for more than 15 years and they have never NOT pulled it off. The tougher the project, the more excited they get. Quality that's good enough for a museum at a speed that any commercial client would love.
